Using a social prescription approach, Support Managers on the Work and Health programme will signpost participants to access these interventions and you will monitor and analyse the network performance, uptake / capacity / innovation / changing needs and impact.

Flexibility in your approach will be required as we need an active network of providers reflecting the changing customer needs throughout the life of programmes.

You will be comfortable in managing partners capacity and performance. An important part of the role is to ensure providers are providing assurance and quality to H&WB standards, the Biopsychosocial model and 5 Ways to wellbeing.
